

## Anthony David “Tony” Stasko

Anthony David Stasko of Shelocta, PA. “Tony” was born January 13, 1964 and died tragically July 3, 2022. Son of the Late Raymond and the Late Josephine Stasko. Brother of Christine (Carl) Martin. Niece Victoria Ragan (Mary and Bella Byrne) Tony always thought of others first. He cared for his sister, Tini from an early age as their single mother died from kidney disease when they were both in high school. He was a fierce protector of her and labeled her as “Stasko’s sister” and no one would mess her for life as they all respected him. He was very loyal to his friends and his family as they could depend on him at any time of the day or night. He purchased his first Harley Softail at the age of 16 and from then on it became his preferred model to own. He enjoyed

building and selling Harley Motorcycles as a hobby. His working career started with purchasing his own Tri-axle dump truck hauling slag, sand and gravel with various trucking companies until making the decision to be a union crane operator for local 66. He enjoyed listening to music and live bands; he even taught himself to play the guitar and piano. Tony had a memory like no other and could tell you story after story of times in the past often an embarrassing moment for you and loved telling them bringing laughter to himself and all that listened. He was famous for giving nicknames, Fifi, Johnny Lawnmower and Turkey toes was a name he gave a girl in flip flops and she amazingly laughed and became friends with him. He was an extra in the Batman movie filmed in Pittsburgh as he was chosen for his stature and confidence of doing anything. His magnetic personality also made him late for nearly all invitations he had. He always had a genuine interest in what people would say. Tony once rode with a group on a bike run to Sturgis from Pennsylvania and while stopping for gas out west annoyed those waiting as he took his time talking inside the station speaking to an old friend because friendships were so valued to him. He loved dogs and spoiled them to the point of the dog sitting at the table in a chair and eating off a dinner plate. Tony enjoyed the ocean and walking on the beach with his wife Kim of 22 years. He made a positive impact no matter where he traveled. His last words were often, “I’ll see ya when I see ya”! May God see your smiling face.
